OFFICE OF INSPECTOR-GENERAL OF EDUCATION IN MYSORE.

No. 4661/206

Bangalore, 9th September 1915.

From

Rao Bahadur
M. SHAMA RAO, ESQ., M.A.,
Inspector-General of Education in Mysore.

To

P. G. D'Souza Esq., B.A. B.L.
Secretary to the Government of H. H. the Maharaja of Mysore,
Departments of Education and Agriculture,
Bangalore.

SIR,

I have the honour to enclose herewith 2 copies of this Office ~~Circular C.~~ ~~Notification D.~~ No. 6 dated 6th August 1915 for reference in the Secretariat.

I have the honour to be,
Sir,
Your most obedient servant,

M. Shama Rao
Inspector-General.

GPB—810—20-5-15

OFFICE OF THE INSPECTOR-GENERAL OF
EDUCATION IN MYSORE,
Bangalore, 6th August 1915.

CIRCULAR C. NO. 6 OF 1915-16.

Arrangements are being made to improve the journal "Vidyadayini" with a view to providing an efficient organ for furnishing to all teachers such up-to-date technical, professional, departmental and literary information as may be useful to them and as may not be within their easy reach, especially of those employed in the mofussil schools. It is further proposed to give all such news of the scientific world as could be turned to use in the class-room. An English supplement will also be issued for the benefit of teachers knowing the language. It is hoped that henceforth teachers will have no excuse for pleading want of facilities to inform themselves on current educational topics. Every teacher in the service of the State is expected to avail himself or herself of the provision thus made by this publication; and the Inspecting Officers will be specially requested to see that the teachers under them post themselves up with the information given in the several issues of this magazine.

To make it easily accessible to all teachers, the following rates of subscription have been fixed:—

	Rs.	a.	p.
1. To teachers drawing less than Rs. 30 and to all *bonâ fide* pupils:—			
Kanarese portion only	1	0	0
Kanarese with English supplement	1	4	0
2. To teachers drawing Rs. 30 and upwards and others not included in the above:—			
Kanarese only	1	8	0
Kanarese with English supplement	2	0	0

Persons desirous of subscribing for the journal, with or without the supplement, should apply to the Special Assistant to the Inspector-General of Education, Bangalore, before the end of September next.

V. SUBRAHMANYA IYER,
For Inspector-General of Education in Mysore

I

Office of the Inspector General of
Education in Mysore,
Bangalore, 7th September, 1915.

C I R C U L A R C. No.9 of 1915-16.

To

(1) All Inspecting Officers of the
Education Department

(2) The District Superintendents, A.E. & I.
(Through the Deputy Commissioners.

The Government in their Order No.824-5/Edn.84-14-10 dated 19th August 1915 have been pleased to sanction a sum of Rs.1,58,400 during the current official year for the opening of

(1) 1,000 Aided Primary Schools at a maximum cost of Rs.84 each

(2) 300 Government Schools at a maximum cost of Rs.200 each

and (3) 100 additional Adult Schools at Rs.144 each.

In addition to the above, they have raised the normal grant provided for subsidizing Village Indigenous Schools from Rs.4,000 to Rs.8,000 to meet the additional expenditure that may be incurred under the new Scheme sanctioned in Government Order No.4146-7/Edn. 32-14-8 dated 17th April 1915 wherein a monthly grant of Rs.3 has been substituted for a system of annual grants.

2. In the selection of villages for locating schools, Government have laid down the following principles to be ordinarily observed:-

The villages should as far as possible be taken in the order of their population but when the choice is between a village having a school already and a smaller one with no school, the latter should be given the preference. Similarly as between villages claiming

aided schools, special preference should be given to villages which form the centre of a group of small villages situated within a distance of 5 or 6 furlongs, or have other features calling for favourable treatment.

Ordinarily no school is to be started unless the people come forward with a guarantee that at least 25 children will be enrolled for instruction, that the daily attendance will not fall below 15, that a decent school house and a residence for the school master free or at a reasonably low rent will be provided and that the villagers will contribute at least about five rupees a month towards his pay either in kind or cash.

Gifts of school houses and endowments for educational purposes will be specially welcome, but the department will not bind itself to provide teachers unless the other conditions are also satisfied.

The location of the Government schools will be regulated by considerations of population, the special importance of any particular village and any exceptional circumstances that diminish the capacity of a particular locality from offering the contribution necessary for an aided school. As a rule Government schools should be reserved for the education of girls and of the specially backward classes, e.g. Lambanis and Panchamas, and for tracts requiring special treatment like the interior of Malnad.

A number of the more successful aided schools will also be converted into Government schools annually and provided with Government buildings when necessary. Ordinarily no aided school will be so converted or provided with a Government building unless it had been working satisfactorily for at least 7 years. In the case of the other schools which have started work, the provision of the Grand-in-aid Code will be applied.

3. As an inducement for the masters of aided schools to work enthusiastically and to maintain their schools in a high standard of

efficiency, the Department will, as a rule, prefer successful masters of aided schools to new applicants while filling up posts in Government Schools and also entertain the existing masters in Government service if adequately qualified whenever an aided school is taken under Government Management.
